

# CONTACTS, CONNECTIONS

- We offer a range of contacts for cordless energy and data transmission. The gold-plated surfaces are highly conductive and corrosion-resistant, thus guaranteeing secure and reliable connection between the enclosures and station/holder.
- The OKW range already includes a selection enclosures, stations and holders with pre-moulded apertures for fitting these contacts. In this way, the user can charge batteries in the device and then transmit data wirelessly in the field – ideal for mobile communication equipment!
- Huge range of battery clips, suitable for OKW enclosures.
- Different terminal blocks and plug headers.
